### A first step towards the rehabilitation of the school

Dear Parents,  
Dear Staff members,

Today, we received some good news from the Ministry of Education. The government announced that it will provide us with \$11 million to develop a business plan for the first phase of the FACE School Rehabilitation Project.

You all aware of the condition of our building and know that, although many repairs have been made over the years, the entire school must still be rehabilitated and brought up to standard.

The decision to allocate \$11 million to our community, ratified by the Council of Ministers on January 16, therefore allows us to look forward to the future with optimism. This first phase will consist in preparing the preparation of preliminary plans for the complete rehabilitation of our school and in analyzing our options for the relocation of students and staff.

This is not only a first step, this is a very significant first step. And although many phases are still ahead of us, this announcement is definitely positive news for our community.

Annie Lamarre  
Principal  
FACE School
